

The technical drawing shows a motor terminal box. The top view is a circle with concentric circles representing mounting holes. Key dimensions include:

- $\phi 135$: Outer diameter of the main body.
- $8-\phi 5, 5$: Eight mounting holes, each with a diameter of 5 mm and a depth of 5 mm, distributed evenly around the perimeter.
- $22,5^\circ$: Angle between adjacent mounting holes.
- $\phi 6H7$ / 深7: Hole size and depth for the terminal screws.
- $11-M6$ / 深13.5: Terminal screw specifications (M6 thread, 11 mm length, 13.5 mm depth).
- $\phi 63$: Diameter of the central circular feature.

The front view below the top view shows the profile of the terminal box, which is rectangular with rounded corners and a base flange.
